THE EXPERIENCE

*A workshop
about love, truth and
being powerful
in life*

Denver

Feb 19, 20 & 21

1993

Life can be powerful

and empowering. Each experience is an opportunity to learn, grow and expand. With the normal stress we all face daily, it's far too easy to forget. The Experience is an opportunity to remember. In it you will learn or recall how to approach life as an exciting adventure, producing the results you want while enjoying the process.

While everyone in the workshop participates in the same basic activities, The Experience is very personal. You focus on *your* needs and *your* goals.

Most people who have completed The Experience report that they have developed a deeper understanding of themselves and others; achieved what they needed and wanted, and much more; and gained tools to integrate all aspects of their lives.

The purpose of The Experience

workshop is to support the participants to live truthfully, powerfully, lovingly, and with integrity. It provides you with a means to discover and experience your own power and the choices that are always available to you. You *can* have the life you choose. The Experience offers you tools for reaching your goals.

The Experience is produced on a volunteer basis by people who have completed this empowering workshop. It is designed for both women and men. The participants are of all ages (18 and over), occupations and lifestyles.

You will meet many new

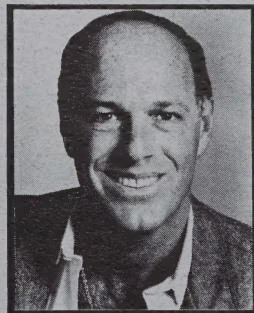

and interesting people. Your relationships are a major focus of The Experience. You will learn how to enhance the quality of all types of relationships so that they are based on communication, love and intimacy.

No matter how well you function today, you probably approach life with many self-imposed limitations. During the workshop, you will be able to see your life, and the many options it affords you, from a broader perspective. The Experience is an investment in a vision of who you can be.

The Experience is facilitated by:

Rob Eichberg, Ph.D.,

licensed clinical psychologist and creator of The Experience. In addition to his work as a nation-

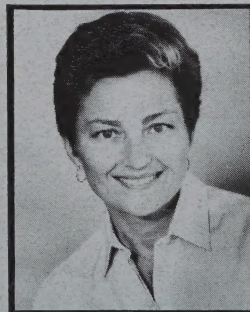

ally known seminar leader, Rob was a consultant to, and trained the staffs of, the Stop AIDS Project (San Francisco) and the Shanti Special Health Education Project (Los Angeles). As a

founder and former Chair of MECLA (Municipal Elections Committee of Los Angeles), and a Founder and Co-Chair of National Coming Out Day, Rob has been active in leadership and fundraising capacities in the lesbian and gay community for more than ten years.

Honey Ward,

certified hypnotherapist and practitioner of Reiki. Facilitating workshops around the country and

serving as the National Coordinator for The Experience organization are but two ways in which she serves. Honey has been involved in the coordinating, facilitating, and fundraising for

many community events and organizations, including her current position on the Board of the Lesbian and Gay Public Awareness Project. She has worked closely with Rob Eichberg since 1979.

On November 3rd, Ignorance and Bigotry Prevailed.

Amendment 2 passed because a lot of lies and misinformation were spread about lesbians and gays.

So, how do we change that?

Even if a challenge to the amendment is successful in the courts, it won't affect the culture which votes discrimination into law. Change begins with each one of us.

Easier said than done? Not if you have the right tools.

The Experience is a not-for-profit organization dedicated to being a force for change in the arena of human rights.

The Experience is a workshop about you and an investment in a vision of who you can be.

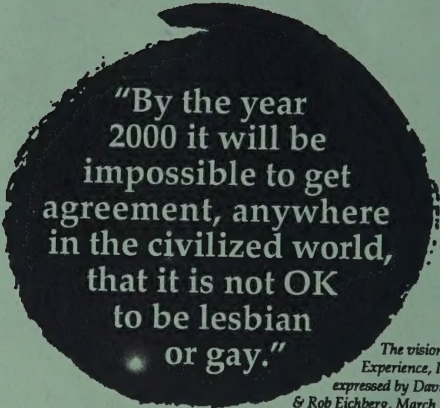

Begun in the gay community, The Experience provides you with a means to discover your own power and the choices that are always available to you. The workshop offers you tools for reaching your goals.

A matter of community: It takes empowered individuals to cause change. The Experience has had a major impact in the Lesbian and Gay community nationwide, and many organizations have emerged as a result of the commitment and leadership of its graduates. Among these are *The Human Rights Campaign Fund*, *The Stop AIDS Project*, *The Lesbian and Gay Public Awareness Project*, and *National Coming Out Day*.

Now, more than ever...Whether you are already involved with a campaign for equality, looking for a way to be effective or wondering what you can do, The Experience offers a next step in understanding your personal power and the difference you can make in your life and your community.
